

Field Service Technician/Mechanic

Reynolds Construction is an industry leader in water supply, pipeline, and treatment plant construction. Providing generations of quality water solutions, Reynolds has been a trusted name for over 75 years. Through all the years, Reynolds still holds true to the basic fundamental values by which it was founded: to deliver projects **safely, on time, within budget**, and to the **satisfaction** of our customers. We are dedicated to the safety of our team and committed to the highest standards of safety and construction performance.

Position Summary: Reynolds Construction is looking for a Field Service Technician/Mechanic to diagnose and repair heavy construction equipment including excavators, cranes, dozers, and trucks both in the field and in the shop. Our equipment lines include Caterpillar, Peterbilt, Kenworth. This position involves operating a service truck and must abide by the Federal Motor Carrier Safety Regulations.

Job Description:

- Perform troubleshooting, diagnostics, preventative maintenance and repairs on all equipment (including CAT, Case, Peterbilt, Kenworth, etc.)
- Crane knowledge recommended.
- Maintain all aspects of equipment maintenance according to company standards
- Report any equipment problems or failures to management immediately
- Must be willing to work overtime
- Must be willing to work and live out of town when needed
- Must comply with D.O.T regulations
- Must have good MVR and a current CDL
- Manage inventory control on the service truck and keep the vehicle properly stocked

Prerequisites:

- Must complete and pass a pre-employment drug & alcohol screen
- CDL required, Class A preferred
- High school diploma or GED equivalent preferred
- 2+ years of diesel engine repair experience required
- Journeyman technician classification recommended but not required
- Display a professional and courteous attitude at all times
- Must be comfortable working in extreme weather conditions unsupervised
- Experience with diesel engines, gasoline engines, hydraulics, and electrical
- Must complete required paperwork daily and have good computer skills
- Good knowledge of CAT, Komatsu, & John Deere equipment
- Good troubleshooting skills
- Coordinate and control parts orders, warranty information, service reports, and documentation required to complete repair
- Must have good social skills for customer relations
- Must have all tools required for field service repair
- Must be willing and have the ability to keep up with new technology
- Understand the importance of safety and assist in enforcement of Reynold's safety programs
- Be self-motivated, have good organizational skills and exceptional work ethic

Employment Package Benefits:

- Paid Vacation
- Paid Holidays
- 401 K Retirement Plan
- AD&D, Long Term Disability Insurance (Short Term Disability available)
- Health/Dental/Life Insurance Available
- Competitive wages with opportunities to advance within the company

Job Type: Full-time, non-union
